

Federal Reserve System

§ 204.126

not be a *deposit* for purposes of Regulations D and Q. The Board believes that a repurchase agreement involving shares of such a MMMF is the functional equivalent of a repurchase agreement directly involving United States government or agency obligations. A purchaser of shares of a MMMF obtains an interest in a *pro rata* portion of the assets that comprise the MMMF's portfolio. Accordingly, regardless of whether the repurchase agreement involves United States government or agency obligations directly or shares in a MMMF whose portfolio consists entirely of United States government or agency obligations, an equitable and undivided interest in United States and agency government obligations is being transferred. Moreover, the Board believes that this interpretation will further the purpose of the exemption in Regulations D and Q for repurchase agreements involving United States government or Federal obligations by enhancing the market for such obligations.

§ 204.126 Depository institution participation in "Federal funds" market.

(a) Under § 204.2(a)(1)(vii)(A), there is an exemption from Regulation D for member bank obligations in nondeposit form to another bank. To assure the effectiveness of the limitations on persons who sell Federal funds to depository institutions, Regulation D applies to nondocumentary obligations undertaken by a depository institution to obtain funds for use in its banking business, as well as to documentary obligations. Under § 204.2(a)(1)(vii) of Regulation D, a depository institution's liability under informal arrangements as well as those formally embodied in a document are within the coverage of Regulation D.
